Reframe | Soap shelf and shower wiper

Soap shelf and shower wiper Brushed steel

Unique soap shelf with hidden magnets in the wall fitting to give the wiper a permanent, functional and practical home.

The soap shelf is made of a strengthened steel plate with a groove to drain the water off it. Around the edge is a thin laser-cut 'anti-slip' barrier, to help stop shampoo and other bathroom products sliding off the shelf when it is wet.

The wiper has just two parts – a high-quality silicone element and a strengthened steel frame. This design distributes the pressure quite evenly across the whole surface and ensures that it is cleaned effectively and consistently. The wiper has silicone bumpers on the ends, to protect tiles and other surfaces from scratches. The silicone element is very hard-wearing and lasts a long time.

The pack contains fittings, screws and an Unbraco key for assembly.

## Specifications

ITEM NUMBER	GTIN NUMBER	WEIGHT
7010	5707692010427	800 g
MATERIAL	SURFACE	HEIGHT
Stainless steel (AISI 304)	Brushed steel	187 mm
DEPTH	WIDTH	
85 mm	350 mm
